

Bathing Culture in Budapest

International Conference of the Frontinus-Society on the History of Water Management and Hydraulic Engineering in the Mediterranean Region
Budapest, September 16 - 23, 2021

Save the date

As announced at the last conference in Rome, the next event will take place in Budapest. The date is now set for 16-23 September 2021 and the programme has already been worked out in detail. We are just waiting for the travel agency's calculation, which is a bit more complicated this time, because we will probably offer three different hotels in three different price categories near the Palace Museum, as the lectures will take place in the Gothic Hall of the museum. As soon as the prices are fixed, the invitation and the call for papers will be announced. Please make a note of the date.

Here is a summary of the program:
